STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of Cebu Country Club, Inc. is responsible for the preparation and fair presentation of the financial statements, including the schedules attached therein, for the years ended December 31, 2020, 2019 and 2018, in accordance with the Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Club's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Club or to cease operations, or has no realistic alternative but to do so.

The Board of Trustees is responsible for overseeing the Club's financial reporting process.

The Board of Trustees reviews and approves the financial statements, including the schedules attached therein, and submits the same to the members.

Diaz Murillo Dalupan and Company, the independent auditor appointed by the members for the periods December 31, 2020, 2019 and 2018, has audited the financial statements of the Club in accordance with Philippine Standards on Auditing, and in its report to the members, has expressed its opinion on the fairness of presentation upon completion of such audit.

Independent Auditors' Report

To the Board of Trustees and Members of CEBU COUNTRY CLUB, INC. (A Non-stock, Non-profit Corporation) Gov. Cuenco Avenue, Barangay Kasambagan Cebu City, Philippines

Report on the Audits of the Financial Statements

Opinion

We have audited the financial statements of Cebu Country Club, Inc. (the "Club"), which comprise the statements of financial position as at December 31, 2020 and 2019, and the statements of comprehensive income, statements of changes in members' equity and statements of cash flows for each of the three years in the period ended December 31, 2020, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Club as at December 31, 2020 and 2019, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2020 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are independent of the Club in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Club's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Club or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Club's financial reporting process.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audits. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
 collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Club's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based
 on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that
 may cast significant doubt on the Club's ability to continue as a going concern. If we conclude that a
 material uncertainty exists, we are required to draw attention in our auditors' report to the related
 disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our
 conclusions are based on the audit evidence obtained up to the date of our auditors' report. However,
 future events or conditions may cause the Club to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events in a
 manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

Report on Supplementary Information required by the Bureau of Internal Revenue

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 28 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of Cebu Country Club, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CEBU COUNTRY CLUB, INC.
(A Non-stock, Non-profit Corporation)
Notes to Financial Statements
As at and for the years ended December 31, 2020 and 2019

1. CORPORATE INFORMATION

Cebu Country Club, Inc. (the "Club") was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on April 11, 1928 with SEC Registration No. 1202. Pursuant to the old Corporation Code, the Club secured SEC's approval on the amendment of its Articles of Incorporation (AOI) to extend the term of its existence for 50 years from and after April 11, 1978 to April 11, 2028. However, this was revoked based on the 2019 Revised Corporation Code which states that a corporation shall have perpetual existence unless otherwise provided in its AOI.

The Club's registered office address is at Gov. Cuenco Avenue, Barangay Kasambagan, Cebu City, Philippines.

The primary activity of the Club is to maintain, operate and manage social and recreative club in the city for amusement, entertainment, instruction, recreation and refreshment of its members.

Although the Club has maintained its status as a non-stock, non-profit corporation, the Board of Trustees (BOT) and the management adopted a continuing review on its financial policy and adopted a plan to raise funds to improve and develop the existing golf course as well as build a new club house that can accommodate up to 1,000 heads for its function rooms to raise more revenues for the golf, and food and beverage departments.

The financial statements of the Club as at and for the year ended December 31, 2020, including its comparatives as at and for the year ended December 31, 2019, were approved and authorized for issue by the BOT on April 13, 2021.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized in this note. The policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

The financial statements of the Club have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs). The term PFRSs in general includes all applicable PFRS, Philippine Accounting Standards (PAS) and Interpretations issued by the former Standing Interpretations Committee (SIC), the Philippine Interpretations Committee (PIC) and the International Financial Reporting Interpretations Committee (IFRIC), which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC.

Basis of preparation

The financial statements have been prepared on a historical cost basis except for trust fund investment which is measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for an asset and change in fair value of the consideration received in exchange for the incurring liability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The financial statements are presented in Philippine Peso (P), the Club's functional and presentation currency. All amounts are rounded to the nearest peso except when otherwise indicated.

Changes in accounting policies and disclosures

The accounting policies adopted are consistent with those of the previous financial years except for the following amended PFRSs that are mandatorily effective for annual periods beginning on or after January 1, 2020.

- Interest Rate Benchmark Reform (Amendments to PFRS 9 and PFRS 7). These amendments
 modify specific hedge accounting requirements to allow hedge accounting to continue for
 affected hedges during the period of uncertainty before the hedged items or hedging instruments
 affected by the current interest rate benchmarks are amended as a result of the on-going interest
 rate benchmark reforms. The amendments also introduce new disclosure requirements to PFRS
 7 for hedging relationships that are subject to the exceptions introduced by the amendments to
 PFRS 9.
- Definition of a Business (Amendments to PFRS 3). The amendments clarify that while businesses usually have outputs, outputs are not required for an integrated set of activities and assets to qualify as a business. To be considered a business an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs. The amendments also introduce additional guidance that helps to determine whether a substantive process has been acquired. The amendments introduce an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar assets. The amendments are applied prospectively to all business combinations and asset acquisitions for which the acquisition date is on or after January 1, 2020.
- COVID-19-Related Rent Concessions (Amendments to PFRS 16). In May 2020, the
 International Accounting Standards Board (IASB) issued this amendment that provides practical
 relief to lessees in accounting for rent concessions occurring as a direct consequence of
 COVID-19, by introducing a practical expedient to PFRS 16. The practical expedient permits a
 lessee to elect not to assess whether a COVID-19-related rent concession is a lease
 modification.

A lessee that makes this election shall account for any change in lease payments resulting from the COVID-19-related rent concession the same way it would account for the change applying PFRS 16 if the change were not a lease modification.

The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- a) The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- b) Any reduction in lease payments affects only payments originally due on or before June 30, 2021 (a rent concession meets this condition if it results in reduced lease payments on or before June 30, 2021 and increased lease payments that extend beyond June 30, 2021); and
- There is no substantive change to other terms and conditions of the lease.
- Revised Conceptual Framework for Financial Reporting. The IASB has issued a revised Conceptual Framework which will be used in standard-setting decisions with immediate effect. Key changes include:
 - a) increasing the prominence of stewardship in the objective of financial reporting
 - reinstating prudence as a component of neutrality
 - c) defining a reporting entity, which may be a legal entity, or a portion of an entity
 - d) revising the definitions of an asset and a liability
 - e) removing the probability threshold for recognition and adding guidance on derecognition
 - f) adding guidance on different measurement basis, and
 - g) stating that profit or loss is the primary performance indicator and that, in principle, income and expenses in other comprehensive income should be recycled where this enhances the relevance or faithful representation of the financial statements.
- Definition of Material (Amendments to PAS 1 and PAS 8). The amendments clarify that
 materiality will depend on the nature or magnitude of information, or both. An entity will need
 to assess whether the information, either individually or in combination with other information,
 is material in the context of the financial statements.

Under prevailing circumstances, the adoption of the foregoing amended PFRSs did not have a material effect on the financial statements of the Club. Additional disclosures were included in the financial statements, as applicable.

New accounting standards, interpretations and amendments to existing standards effective subsequent to January 1, 2020

Standards issued but not yet effective up to the date of the Club's financial statements are listed below. This listing of standards and interpretations issued are those that the Club reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Club intends to adopt these standards when they become effective.

Property, Plant and Equipment before Intended Use (Amendments to PAS 16)

The amendments to PAS 16, Property, Plant and Equipment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment. Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities. The amendments are effective for annual periods beginning on or after January 1, 2022.

Reference to the Conceptual Framework (Amendments to PFRS 3)

Minor amendments were made to PFRS 3, Business Combinations to update the references to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of PAS 37, Provisions, Contingent Liabilities and Contingent Assets and Philippine Interpretation IFRIC 21, Levies. The amendments also confirm that contingent assets should not be recognized at the acquisition date. The amendments are effective for annual periods beginning on or after January 1, 2022.

Onerous Contracts - Cost of Fulfilling a Contract (Amendments to PAS 37)

The amendment to PAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract. The amendments are effective for annual periods beginning on or after January 1, 2022.

Annual Improvements to PFRSs Cycle 2018 to 2020

- a) PFRS 9, Financial Instruments clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- PFRS 16, Leases amendment of illustrative example 13 to remove the illustration of payments from the lessor relating to leasehold improvements, to remove any confusion about the treatment of lease incentives.

The annual improvements is effective for annual periods beginning on or after January 1, 2022.

PFRS 17, Insurance Contracts

The new standard establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts, including reinsurance contracts held and investment contracts with discretionary participation features issued. The objective of the standard is to ensure that entities provide relevant information in a way that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that contracts within the scope of the standard have on the entity's financial position, financial performance and cash flows. The standard is effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Classification of Liabilities as Current or Noncurrent (Amendments to PAS 1)

The narrow-scope amendments to PAS I, Presentation of Financial Statements clarify that liabilities are classified as either current or noncurrent, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (e.g. the receipt of a waver or a breach of covenant). The amendments also clarify what PAS I means when it refers to the 'settlement' of a liability. The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine classification and for some liabilities that can be converted into equity. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Disclosure of Accounting Policies (Amendments to PAS 1 and PFRS Practice Statement 2)

The narrow-scope amendments PAS I, Presentation of Financial Statements require entities to disclose material accounting policy information instead of significant accounting policies. The amendments also clarify the following: (1) accounting policy information may be material because of its nature, even if the related amounts are immaterial; (2) accounting policy is material if users of an entity's financial statements would need it to understand other material information in the statements; and (3) if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information. Further, the amendments provide several paragraphs to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material. In addition, PFRS Practice Statement 2 has been amended by adding guidance and examples to explain and demonstrate the application of 'four-step materiality process' to accounting policy information in order to support the amendments to PAS 1. The amendments are applied prospectively. The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted. Once the entity applies the amendments to PAS 1, it is also permitted to apply the amendments to PFRS Practice Statement 2.

Definition of Accounting Estimates (Amendments to PAS 8)

The amendments to PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors focus entirely on accounting estimates and clarify the following:

- a) The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".
- Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.
- c) A change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.
- d) A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognized as income or expense in the current period. The effect, if any, on future periods is recognized as income or expense in those future periods.

The amendments are effective for annual periods beginning on or after January 1, 2023, with earlier application permitted.

Determination of fair value and fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Club.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Club uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Club determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Club determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement.

For the purpose of fair value disclosures, the Club has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Fair value measurement disclosures of financial and non-financial assets are presented in note 25 to the financial statements.

Financial instruments

Initial recognition, measurement and classification of financial instruments

The Club recognizes financial assets and financial liabilities in the statements of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date.

With the exception of trade and other receivables that do not contain a significant financing component, financial assets and financial liabilities are recognized initially at fair value including transaction costs, except for those financial assets and liabilities at fair value through profit or loss (FVPL) where the transaction costs are charged to expense in the period incurred. Trade receivables that do not contain a significant financing component are recognized initially at their transaction price.

The Club classifies its financial assets as subsequently measured at amortized cost and, fair value through other comprehensive income (FVOCI) and FVPL. The classification of financial assets at amortized cost, at FVOCI or at FVPL depends on the financial asset's contractual cash flow characteristics and the Club's business model for managing the financial assets. The Club's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Club's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Club classifies its financial liabilities as subsequently measured at amortized cost using the effective interest method or at FVPL.

Financial assets at amortized cost

Financial assets are measured at amortized when both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, financial assets at amortized cost are subsequently measured using the effective interest method less allowance for impairment. Gains and losses are recognized in the statements of comprehensive income when the financial assets at amortized cost are derecognized, modified or impaired. These financial assets are included in current assets if maturity is within 12 months from the end of reporting period. Otherwise, these are classified as noncurrent assets.

As at December 31, 2020 and 2019, included under financial assets at amortized cost are the Club's Cash and cash equivalents, Trade and other receivables, Long term investment and Refundable deposits (see notes 4, 5, 9 and 11).

(a) Cash and cash equivalents

Cash includes cash on hand and cash in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value with original maturities of three (3) months or less.

(b) Trade and other receivables

Trade receivables are receivables from members which are subsequently measured at amortized cost less allowance for any loss on impairment. Accordingly, allowances are set up for doubtful accounts and for any anticipated adjustments of which in the normal course of events, will reduce the amounts of receivables from members and others. Impairment loss is provided when there is objective evidence that the Club will not be able to collect all amounts due to it in accordance with the original terms of the receivables.

Other receivables pertain to advances from employees, receivable from Social Security System (SSS) for sickness and maternity reimbursements from the government and receivable from credit card merchants.

(c) Long-term investments

Long-term investments are investments that are deposited in the banks to earn interest and are convertible to known amounts of cash and are subject to insignificant risk in case of change in value.

(d) Refundable deposits

Refundable deposits are payments to lessor and utility service providers for electric meter used. Deposit to lessor is refundable at the end of lease term.

Equity instrument designated at FVOCI

Upon initial recognition, the Club may make an irrevocable election to present in other comprehensive income changes in the fair value of an equity investment that is not held for trading. The classification is determined on an instrument-by-instrument basis.

When the equity instrument is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is not subsequently reclassified to profit or loss, but is transferred to retained earnings. Dividends on such investments are recognized in profit or loss when the right of payment has been established, except when the dividends represent a recovery of part of the cost of the investment, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment. These financial assets are classified as noncurrent assets.

The Club's equity instrument designated at FVOCI are Trust fund investments as at December 31, 2020 and 2019 (see note 8).

Financial liabilities at amortized cost

Financial liabilities that are not contingent consideration of an acquirer in a business combination, held for trading, or designated as at FVPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

Financial liabilities s are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer) while non-trade payables are classified as current liabilities if payment is due within one year or less. If not, these are presented as noncurrent liabilities.

As at December 31, 2020 and 2019, included under financial liabilities at amortized cost are Trade and other payables (except unearned revenues and payable to government agencies) and Member's cash and option deposits (see notes 12 and 13).

(a) Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other payables include non-trade payables and accrued expenses.

(b) Members' cash and option deposits

Members' cash and option deposits are payments made by assignee, special Club members, and senior members upon approval of their membership application.

Amortized cost and effective interest method

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost and at FVOCI. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.

For purchased or originated credit-impaired financial assets, the Club recognizes interest income by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

For financial assets other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses (ECLs), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including ECLs, to the amortized cost of the debt instrument on initial recognition.

Interest income is recognized under Other income (net) in the statements of comprehensive income.

Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities

Derecognition of financial assets and financial liabilities

(a) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Club retains the right to receive cash flows from the asset, but has assumed an
 obligation to pay them in full without material delay to third party under a "pass-through"
 arrangement; or
- the Club has transferred its rights to receive cash flows from the asset and either (a) has
 transferred substantially all the risks and rewards of the asset, or (b) has neither transferred
 nor retained substantially all risks and rewards of the asset, but has transferred control of the
 asset.

Where the Club has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Club's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Club could be required to repay.

(b) Financial liabilities

A financial liability is derecognized when the obligation was discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statements of comprehensive income.

Impairment of financial assets

The Club recognizes an allowance for ECLs for all debt instruments that are measured at amortized cost, and trade and other receivables. ECLs are a probability-weighted estimate of credit losses over the expected life of the financial asset.

Credit losses are the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Club expects to receive, discounted at the original effective interest rate. The expected cash flows include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables, the Club applies a simplified approach in calculating ECLs. The Club recognizes a loss allowance based on lifetime ECLs at the end of each reporting period. The ECLs on these financial assets are estimated using a provision matrix based on the Club's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment, including time value of money where appropriate.

When the credit risk on financial instruments for which lifetime ECLs have been recognized subsequently improves, and the requirement for recognizing lifetime ECLs is no longer met, the loss allowance is measured at an amount equal to 12-month ECL at the current reporting period, except for assets for which simplified approach was used.

The Club recognizes impairment loss (reversals) in profit or loss for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account.

The Club assesses at each end of the reporting period whether the credit risk on a financial asset has increased significantly since initial recognition. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to the lifetime ECLs. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to 12-month ECLs. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting period.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Club compares the risk of a default occurring on the financial instrument at the end of reporting period with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Club considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Club's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Club's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. the extent to which the fair value of a financial asset has been less than its amortized cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;

an actual or expected significant adverse change in the regulatory, economic, or technological
environment of the debtor that results in a significant decrease in the debtor's ability to meet its
debt obligations.

Irrespective of the outcome of the above assessment, the Club presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Club has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Club assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the end of reporting period. A financial instrument is determined to have low credit risk if:

- · the financial instrument has a low risk of default;
- the debtor has a strong capacity to meet its contractual cash flow obligations in the near term;
- adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

The Club considers a financial asset to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Club regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

0

The Club considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Club, in full (without taking into account any collateral held by the Club).

The Club has no history of customer defaults in the past years.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lenders of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lenders would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Club writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade and other receivables, when the amounts are over one year past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the Club's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

Inventories

Inventories are initially recognized at cost. Subsequently, inventories are measured at the lower of cost and net realizable value (NRV). Cost is determined using the first-in first-out method. NRV is the estimated selling price in the ordinary course of the business, less applicable costs necessary to make the sale. NRV of the inventories is the current replacement cost.

When the NRV of the inventories is lower than the cost, the Club provides an allowance for the decline in the value of the inventory and recognizes the write-down as expense in the profit of loss.

The amount of any reversal of any write-down of inventories, arising from an increase in NRV is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

These are derecognized when sold, disposed or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising from derecognition of the asset (calculated as the different between the net disposal proceeds and the carrying amount of the item) is included in the statements of comprehensive income in the year the item is derecognized.

Prepayments

Prepayments are expenses paid in advance and recorded as asset before these are utilized. Prepayments include prepaid insurance, dues and subscription and input VAT. Prepayments are apportioned over the period covered by the payment and charged to the appropriate accounts in the statements of comprehensive income when incurred.

Input VAT is the indirect tax paid by the Group on the local purchase of goods or services from a VAT-registered person. Input tax is deducted against output tax in arriving at the VAT due and payable.

Prepayments that are expected to be realized for not more than 12 months after the reporting date are classified as current assets; otherwise, these are classified as noncurrent assets.

Property and equipment

Property and equipment (except land) are initially recognized at cost and subsequently measured at cost less accumulated depreciation and any impairment in value. Land is initially recognized at cost and subsequently measured at cost less any accumulated impairment loss.

The initial cost of property and equipment comprises its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance are normally charged against operations in the period in which the costs are incurred. Expenditures for additions, major improvements and renewals are capitalized.

Depreciation of property and equipment commences once the property and equipment are available for use and computed using the straight-line method over their estimated useful lives as follows:

t the second	10 years
Land improvements	10 years
Clubhouse and buildings	5 years
Tools, utensils and equipment	10 years
Water system Office, bar and restaurant furniture and fixtures	5 years
	3-5 years
Other fixed assets	25 (5 M 75)

The useful lives and depreciation method are reviewed annually to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

When properties and equipment are retired or otherwise disposed of, the cost of the related accumulated depreciation and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Fully depreciated property and equipment are retained in the accounts until these are no longer in use and no further depreciation is charged against current operations.

Intangible asset

Intangible asset acquired separately is measured on initial recognition at cost. Subsequent to initial recognition, intangible asset is carried at cost less any accumulated amortization, in the case of intangible asset with finite life, and any accumulated impairment losses.

The Club's intangible asset consists of computer software which has a definite useful life. The computer software is amortized using the straight-line method over an estimated useful life of five years with no residual value.

These are tested annually for impairment as changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates.

These are derecognized on disposal, or when no future economic benefits are expected from use or disposal. Grains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the statements of comprehensive income.

Other noncurrent assets

Other noncurrent assets include project development costs, deferred input value-added tax (VAT) and refundable deposits. Project development costs pertains to advances for the re-development of the golf course including incidental costs such as strategy and feasibility studies, and management fees paid to professionals. Deferred input VAT pertains to the input VAT of the purchased capital goods exceeding \$1,000,000. Refundable deposit pertains to payment to utility service provider for efectrs; meter used.

These are expected to be realized for more than 12 months, and are classified as noncurrent assets.

Impairment of non-financial assets

At the end of each reporting period, the Club assesses whether there is any indication that any of its assets may have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Club estimates the recoverable amount of the CGL to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, assets are also allocated to individual CGU, or otherwise they are allocated to the smallest group of CGLs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value is use: the estimated future cash flows are discounted to their present value using a pre-tax discount time that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of fainte cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized as an expense, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. A reversal of an impairment loss is recognized as income, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Members' equity

(a) Proprietary membership certificates

The proprietary ownership certificates (POC) issued to original proprietary members are not to be issued for less than P3,000. The POCs have the following rights and limitations as to ownership:

- Proprietary members are holders of POC. POC holders are divided into 401 members and 129 non-members. Members are further classified as voting and non-voting as determined by the Board. Voting members can vote and hold office in the Club.
- The BOT may, by a unanimous vote of all directors, present at a special or regular meeting, authorize and issue to a company, for a fee, to be fixed by the BOT, a special company non-proprietary membership certificate which entitle any duly designated officer of the company to use the club facilities in the same manner as a resident non-proprietary member. At any given time, outstanding company membership certificates cannot exceed 120 in number. All special company non-proprietary membership certificates issued after March 1, 1978 shall be automatically cancelled and recalled within 10 years of the date of issuance without prejudice to the company's application for a new membership certificate.
- Junior members are children of POC holders that wished to use the facilities of the Club in their own capacity. They shall be exempted from admission fees. Application shall be in writing undertaken by the parent who guarantees for the payment of all monthly bills of the junior member. The child must be 21 to 30 years to qualify for the status. Limitations of a junior member include guest card rights and functions sponsorship.
- Assignee members are holders of the rights and benefits of POC holders. Deed of
 assignment must be made for the assignee to be a member and be privileged to use all the
 Club's facilities. The assignor and the assignee are solidarily liable to the Club.

Senior proprietary members are proprietary members who have been a member of the Club for 25 consecutive years, upon reaching the age of 70 are qualified to be a senior member. The BOT cannot refuse any senior proprietary member to change status. A senior member shall be exempted from owning a POC for continued membership provided that he makes a refundable deposit to the Club in the amount of P20,000 or such higher amount as the BOT may require from time to time and provided further that if he is a voting member he shall immediately cease to be such if he sells his POC though he may continue to enjoy all other benefits and privileges of a senior member.

(b) Additional contributions.

Additional contributions are excess of member's payment over the stated value of the POC which is recognized during the sale of the POC by the Club.

ics. Retained earnings

Retained earnings include all current and prior results as disclosed in the statements of comprehensive income and the statements of changes in members' equity.

Revenue recognition

Revenue from contracts with customer is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Club expects to be entitled in exchange for those goods or services.

Wahan the scope of PFRS 15

(a) Membership dues pertains to monthly's dues and admission fees paid by members for the average membership period. Revenues are recognized over time when membership dues are due and demandable.

Admission tees are expected to be amortized for an average membership period of 10 years and are classified as noncurrent liabilities. Unearned admission fees pertaining to members with remaining average membership period within 12 months are recognized under current liabilities. Amortization for the year is recognized as part of Membership dues under Revenues in the statements of comprehensive income.

Any advance payments and unamortized admission fees are recorded under Contract liabilities in the statements of financial position.

(b) Golf and other sports recreation pertain to service fees for every play of golf and fees charged for the use of the Clab's golf and other amenities.

Resenues are recognized upon satisfaction of performance obligation transferring of the promised services or upon the use of the Club's facilities.

1. Food and heverage are recognized when the transfer of control has been passed to the buyer at the laws when the performance obligation has been satisfied. Payment of the transaction price to the minimalisately at the point when the customer purchases the goods.

Outside the scope of PFRS 15

- (d) Interest income is recognized as it accrues (using the effective interest method i.e., the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset).
- (e) Other income is recognized upon the usage of Club's facilities other than golf course and major facilities of the Club.

Expense recognition

Cost and expenses are recognized in the statements of comprehensive income when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably.

- (a) Cost of services is recognized as an expense when the related services are rendered.
- (b) Administrative expenses constitute costs of administering the business and are expensed as incurred.

Related party relationships and transactions

A related party transaction is a transfer of resources, services, or obligations between related parties, regardless of whether a price is charged.

Related party relationship exists when: (a) a person or a close member of that person's family has control or joint control, has significant influence or is a member of the key management personnel of the Club or of a parent of the Club; and (b) when any of the following conditions apply: (i) the entity and the Club are members of the same group; (ii) one entity is an associate or joint venture of the other entity; (iii) both entities are joint ventures of the same third party; (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third party; (v) the entity is a post-employment benefit plan for the benefit of employees of the Club; (vi) the entity is controlled or jointly controlled by a person as identified in (a) above; (vii) the entity or any member of a group of which it is part, provides key management personnel services to the Club or to the parent of the Club; and (viii) a person identified in (a) above has significant influence over the entity or is a member of the key management personnel of the entity or of a parent of the entity.

In considering each possible related party relationship, attention is directed to the substance of the relationships, and not merely the legal form.

Retirement benefits liability

Retirement benefits are provided to employees through a defined benefit plan. A defined benefit plan is a retirement plan that defines an amount of retirement benefit that a qualified employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation. The legal obligations for any benefits from this kind of pension plan remains with the Club.

The Club's defined benefit pension plan covers all regular full-time employees. The pension plan is registered with the Bureau of Internal Revenue (BIR) and is qualified for tax exemption.

Typically, defined benefit plans define an amount of retirement benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any).

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method. Defined benefit costs comprise service cost, net interest on the net defined benefit liability or asset and remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on nonroutine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the statements of comprehensive income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognized in the statements of comprehensive income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at reporting date. The management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates that have been enacted or substantively enacted as of the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred income tax assets are recognized for all deductible temporary differences, carrying forward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carry-over (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, carrying forward benefits of unused tax credits from excess of MCIT over RCIT and unused NOLCO can be utilized. At each reporting period, the Club reassesses the need to recognize previously unrecognized deferred income tax asset. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax asset against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Foreign currency transaction

Functional and presentation currency

Items included in the financial statements of the Club are measured using the functional currency. Functional currency is the currency of the primary economic environment in which the Club operates. The financial statements are presented in Philippine Peso (P), the Club's functional and presentation currency.

Provisions and contingencies

Provisions are recognized when the Club has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made with the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, an increase in the provision due to the passage of time is recognized as an interest expense. When the Club expects a provision or loss to be reimbursed, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in the statements of comprehensive income, net of any reimbursement.

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements, but disclosed when an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements.

Events after the reporting period

Post year-end events that provide additional information about the Club's position at the reporting date (adjusting events) are reflected in the financial statements. Significant post year-end events that are not adjusting events are disclosed in the notes to financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements in compliance with PFRSs requires the management to make estimates and assumptions that affect the amounts reported in the financial statements. The estimates and assumptions used in the financial statements are based on the management's evaluation of relevant facts and circumstances at the end of the reporting period. Actual results could differ materially from such estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant accounting judgments in applying the Club's accounting policies

(a) Business model assessment

Classification and measurement of financial assets depends on the results of the business model and solely for payments of principal and interest test. The Club determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated.

The Club monitors financial assets measured at amortized cost or FVOCI that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Club's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets. No such changes were required during the periods presented.

(h) Significant increase in credit risk

ECL are measured as an allowance based on lifetime ECLs at the end of each reporting period. In assessing whether the credit risk of an asset has significantly increased, the Club takes into account qualitative and quantitative reasonable and supportable forward-looking information. The management assessed that there was no significant increase in credit risk on the Club's financial assets for the years ended December 31, 2020 and 2019.

(c) Impairment of non-financial assets

Property and equipment and intangible asset are periodically reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment loss would be recognized whenever there is existing evidence that the carrying amount is not recoverable.

The management believes that there is no indication that property and equipment and intangible asset are impaired as at December 31, 2020 and 2019.

Significant accounting estimates and assumptions

(a) Determining NRV of inventories

In determining the NRV of inventories, the management takes into account the most reliable evidence available at the time the estimates are made. Prices are affected by both internal and external factors that may cause inventory obsolescence. These factors may cause significant adjustment to the Club's inventories within the next reporting period.

As at December 31, 2020 and 2019, the carrying amount of the Club's inventories which are carried at NRV amounted to P8,133,142 and P5,363,534, respectively. There was no allowance for inventory obsolescence recognized in the books for both years (see note 6).

(b) Estimating useful lives of property and equipment and intangible assets

The Club estimated the useful lives of its property and equipment and intangible asset based on the period over which the assets are expected to be available for use. The estimated useful lives are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technological or commercial obsolescence or other limits on the use of our assets. In addition, estimation of the useful lives is based on the Club's collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by the changes in the estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives would increase our recorded depreciation or amortization and decrease the noncurrent assets.

As at December 31, 2020 and 2019, total carrying amount of property and equipment (except for land of P260,602,860) amounted to P41,291,642 and P37,834,361, respectively (see note 7).

As at December 31, 2020 and 2019, total carrying amount of intangible asset amounted to P1,442,751 and P235,038, respectively (see note 10).

(c) Retirement benefits liability

The determination of the obligation and cost of post-retirement benefit is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include among others, discount rates, expected returns on plan assets and rates of compensation increase. In accordance with PFRS, actual results that differ from our assumptions are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded obligation in such future periods. Though assumptions made by the Club are appropriate and reasonable, significant difference in the actual experience or significant changes in the assumptions may materially affect the Club's post retirement obligations.

As at December 31, 2020 and 2019, the carrying amount of retirement benefits liability are \$\mathbb{P}_9,156,763\$ and \$\mathbb{P}_5,957,591\$, respectively (see note 14).

4. CASH AND CASH EQUIVALENTS

This account as at December 31 consists of the following:

2020	2019
P75,000	P75,000
29,076,941	50,206,881
15,337,219	14,891,142
P44,489,160	P65,173,023
	P75,000 29,076,941 15,337,219

Cash in banks generally earn interest at respective bank deposit rates of 0.25%. Cash equivalents are short-term deposits in banks with maturities of less than three months from the date of acquisition and earn interest at 2%. Interest income earned on cash and cash equivalents amounted to P311,216 in 2020 and P606,778 in 2019 and presented as part of *Interest income* under *Other income* in the statements of comprehensive income (see note 18).

There is no restriction on the Club's cash and cash equivalents as at December 31, 2020 and 2019.

5. TRADE AND OTHER RECEIVABLES

This account as at December 31 consists of the following:

	2020	2019
Trade receivables	P15,021,654	P14,706,596
Advances to officers and employees	80,343	99,751
Other receivables	650,349	654,938
Total	P15,752,346	P15,461,285

Trade receivables from members have normal credit term of 30 days.

Advances to officers and employees are advances for liquidation and medical assistance initially paid by the Club. Advances for liquidation are to be liquidated within 10 days from the end of the activity while medical assistance are collectible within 30 to 90 days through salary deduction.

Other receivables include receivable from SSS for sickness and maternity reimbursement and credit card merchants.

6. INVENTORIES

This account as at December 31 consists of the following:

	2020	2019
Motor pool and supplies	P6,743,937	P3,568,948
Food and beverages	713,435	1,291,314
Stockroom supplies	675,770	503,272
Total	P8,133,142	P5,363,534

All inventories as at December 31, 2020 and 2019 were stated at cost. The management assessed that the cost of inventories is lower than its NRV.

The cost of inventories recognized as expense and included under Cost of services in the statements of comprehensive income amounted to P11,273,933 in 2020 and P28,433,424 in 2019 which consists of food and beverages, and supplies used to provide services (see note 19).

No part of the inventories is used as collateral for any of the Club's payables.

7. PROPERTY AND EQUIPMENT (NET)

The reconciliation of property and equipment measured at cost as at December 31 is as follows:

Decem		2 4		
Decem	1100		71	3743

	4 m 10 m 10							
	Land	Land improvements	Clubbouse and buildings	Tools, utensils and equipment	Water system	Office, bar and restaurant furniture and equipment	Other fixed assets	Total
Cost				(in	thousands)			
Balance at beginning of year Additions	P260,603	P83,806 6,522	P73,913 45	P75,330 6,427	P10.510	P15.697 442	PS,184 850	₱528,043 14,423
Balance at end of year	260,603	90.328	73,958	81,757	10.647	16,139	9,034	542,466

8. TRUST FUND INVESTMENTS

This account pertains to the Club's trust fund account with a bank. Changes in the trust fund balance as at December 31 are summarized as follows:

	2020	2019
Balance at beginning of year	P12,289,887	P11,384,510
	267,142	399,717
Trust fund earnings	(212,500)	505,660
Fair value gain (loss)	P12,344,529	P12,289,887
Balance at end of year	2.100	_

The fair value of the Club's trust fund consists of the following:

	2020	2019
C deima danosit	P9,175,566	P6,493,147
Savings and time deposit	3,168,963	5,761,416
Investment in private corporations		35,324
Dividends receivable	P12,344,529	P12,289,887
Total		

In accordance with the amended by-laws, an amount not less than fifty percent (50%) of the proceeds of sale of POC and 100% of the option money shall be deposited under a trust instrument with any established reputable trust corporation for the purpose of deriving a steady and dependable income for the Club.

The earnings derived from the trust deposit shall be used exclusively for capital improvements of the Club and no part of the trust deposit may be used or disposed of without approval of 2/3 of the members entitled to vote, except for the refund of option payments.

As at December 31, 2020, the amount required to be deposited in trust principal account amounted to P10,752,514 which consist of the following:

50% of proceeds of POC issued	P10,749,514
100% of options deposits	3,000
Total	P10,752,514

Income from trust is also kept in the trust fund and is credited to an *Unexpended trust fund earnings* in the statements of changes in member's equity. Total unexpended trust fund earnings amounted to P9,219,104 and P9,164,462 as at December 31, 2020 and 2019, respectively.

The roll-forward of unexpended trust fund earnings are as follows:

	2020	2019
Balance at beginning of year	P9,164,462	P8,259,085
Trust fund earnings	267,142	399,717
Fair value gain (loss)	(212,500)	505,660
Balance at end of year	P9,219,104	P9,164,462

9. LONG-TERM INVESTMENT

In 2018, the Club entered into an agreement with the banks for a long-term time deposit for a period of five years. Balance of investment as at December 31, 2020 and 2019 amounted to P14,814,450.

The investment earns interest of 4%, total interest earned amounted to P443,421 in 2020 and P461,300 in 2019, respectively, and is presented as part *Interest income* under *Other income* in the statements of comprehensive income. The interest income earned are directly deposited to cash and cash equivalents (see notes 4 and 18).

INTANGIBLE ASSET (NET)

The reconciliation of intangible asset as at December 31 is as follows:

	2020	2019
Cost		
Balance at beginning of year	P4,910,277	P4,809,171
Additions	2,441,029	101,106
Balance at end of year	7,351,306	4,910,277
Accumulated amortization	D. T. D. S.	
Balance at beginning of year	4,675,239	4,530,099
Amortization	1,233,316	145,140
Balance at end of year	5,908,555	4,675,239
Net carrying amount	P1,442,751	P235,038

The amortization are charged to operations is presented as part of Depreciation and amortization in the statements of comprehensive income. Intangible asset is subject to annual impairment testing and whenever there is an indication of impairment. The management has evaluated that there were no indicators for impairment in 2020 and 2019.

No part of the intangible assets is used as collateral for any of the Club's payables no contractual commitments for its future acquisition of intangible assets as at December 31, 2020 and 2019.

11. OTHER NONCURRENT ASSETS

This account as at December 31 consists of the following:

	2020	2019
Deferred input VAT	P195,604 105,520	P426,773 105,520
Refundable deposits Total	P301,124	P532,293

In 2016, the Club purchased capital goods exceeding P1,000,000 which resulted in recognition of deferred input VAT to be amortized by five years or 60 months.

Project development costs pertains to advances for the re-development of the golf course including incidental costs like strategy and feasibility studies and management fees paid to professionals.

In 2015, the management approved the amortization of the project development for five years, since the re-development project will no longer be realized. Amortization for the years ended December 31, 2019 and 2018 amounted to P2,284,086 and is presented as *Project development cost* as part of *Cost of services* in the statements of comprehensive income (see note 19).

12. TRADE AND OTHER PAYABLES

This account as at December 31 consists of the following:

2020	2019
P4,329,536	P10,691,835
30,003,132	28,649,411
515,925	1,258,449
1,947,391	2,581,217
P36,795,984	P43,180,912
	P4,329,536 30,003,132 515,925 1,947,391

Trade payables pertain to the amount due to suppliers payable within 30 to 60 days from the date of sale and do not bear any interest.

Activity fund payable includes jungolf program fund, Christmas fund, Easter Sunday fund, insurance payable and others charged to members and tourist.

Other liabilities consist of 13th month pay accrual, service charge payable, back wage pay of resigned employees and employee union dues. This also includes accounts payable to pro-shop for the golf set availed by members which were subsequently billed and collected from members due for payment to pro-shop.

13. MEMBERS' CASH AND OPTION DEPOSITS

This account as at December 31 consists of following:

	2020	2019
Members' cash deposits	P20,671,640	P24,068,500
Members' option deposits	3,000	3,000
Total	P20,674,640	P24,071,500

Members' cash deposits are payments made by assignee, special Club members and senior members upon approval of their membership application. When the members withdraw their membership, the Club is obliged to return the cash deposit.

Members' option deposits are payment made by assignee special Club members and senior members upon approval of their membership application, and deposited under a trust instrument with any established reputable trust corporation for the purpose of deriving a steady and dependable income for the Club (see note 8).

14. RETIREMENT BENEFITS LIABILITY

The Club maintains a funded, noncontributory defined benefit plan administered by a trustee covering all regular and full-time employees. The fund is administered by a trustee bank that is authorized to invest the fund as they deem proper. The funds are invested in bonds, government securities and time deposit with coupon rates ranging from 2% to 3.25%. The retirement plan provides a retirement benefit equal to 30 days pay for every year of credited service. The Club's latest actuarial valuation report for its retirement benefits liability as at December 31, 2020 is dated January 22, 2021.

The retirement benefits liability recognized in the statements of financial position as at December 31 is determined as follows:

,995,468	P26,862,249
,838,705)	(20,904,658)
,156,763	P5,957,591
i	The second second second second

6

The movements in the retirement benefits liability recognized in the statements of financial position as at December 31 is determined as follows:

	2020	2019
Retirement benefits	CONTRACTOR STATE	100000000000000000000000000000000000000
Current service cost	P1,962,185	P1,842,370
Net interest expense	296,688	577,863
	2,258,873	2,420,233
Remeasurement loss (gain) for the year		Coltagora
Loss from change in financial assumptions	2,141,838	366,075
Actuarial gain on plan assets	(151,539)	(837,670)
	1,990,299	(471,595)
Contributions	(1,050,000)	(3.800,000)
Vote 1004 107 -0 7050	3,199,172	(1,851,362)
Balance at beginning of year	5,957,591	7,808,953
Balance at end of year	P9,156,763	P5,957,591

The movements of remeasurement loss on retirement benefits recognized in the statements of financial position as at December 31 is determined as follows:

	2020	2019
Balance at beginning of year	P4,744,930	P5,075,046
Remeasurement loss (gain) for the year	1,990,299	(471,594)
Deferred tax	(597,090)	141,478
Balance at ending of year	P6,138,139	P4,744,930

The retirement benefits recognized in the statements of comprehensive income for the year ended December 31 is as follows:

	2020	2019
Current service cost	P1,962,185	P1,842,370
Net interest expense	296,688	577,863
Total	P2,258,873	P2,420,233

The retirement benefits is presented as a part of Salaries and wages under the Administrative expenses in the statements of comprehensive income (see note 20).

The movements in the present value of obligation as at December 31 are determined as follows:

	2020	2019
Balance at beginning of year	P26,862,249	P25,376,756
Current service cost	1,962,185	1,842,370
Interest cost	1,337,740	1,877,880
Actuarial loss	2,141,838	366,075
Benefits paid	(4,308,544)	(2,600,832)
Balance at ending of year	P27,995,468	P26,862,249

The movements in the fair value of plan assets for the years ended December 31 are as follows:

	2020	2019
Balance at beginning of year	P20,904,658	P17,567,803
Expected return on plan assets	1,041,052	1,300,017
Contributions	1,050,000	3,800,000
Actuarial gain	151,539	837,670
Benefits paid	(4,308,544)	(2,600,832)
Balance at ending of year	P18,838,705	P20,904,658

The Club's retirement plan assets as at December 31 consist of:

	2020	2019
Cash equivalents	P19,650	P1,357,728
Investments in government bonds	15,199,505	14,081,625
Investments in stocks	3,619,550	5,465,305
Total	P18,838,705	P20,904,658

The fair value of the plan assets approximates their carrying amount as at December 31, 2020 and 2019.

For determination of the retirement benefits liability, the following actuarial assumptions (percentage per annum, compounded annually) were used:

	2020	2019
Discount rate	4.98%	7.40%
Salary increase rate	4.00%	6.00%

Assumptions regarding mortality and disability experience are based on the 1994 Group Annuity Table and the 1952 Disability Table, respectively.

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions which can affect the related retirement benefits liability in the financial statements is as follows:

December 31, 2020	Change in	Income to	Decrease in
	Change in assumptions	Increase in assumptions	assumptions
Discount rate	+1/-1.00%	(*3,340,505)	P4,006,730
Salary increase rate	+1/-1.00%	3,941,215	(3,367,695)
December 31, 2019			
	Change in assumptions	Increase in assumptions	Decrease in assumptions
Discount rate	+1/-1.00%	(P2,901,021)	P3,446,740
	+1/-1.00%	3,445,796	(2,974,795)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

P14,489,512

P4,871,309

When calculating sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the retirement liability recognized within the statements of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

Through its defined benefit retirement plan, the Club is exposed to a number of risks, the most significant of which are as follow:

- Asset volatility The plan liabilities are calculated using a discount rate set with reference to government bonds, if future plan assets underperformed its yield, this will create a deficit.
- Changes in bond yield A decrease in government bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the any plans' bond holdings.

The Club annually reassess its retirement plan and provide contributions to meet the minimum required funding.

The weighted average duration of the defined benefit obligation is 17 years as at December 31, 2020 and 2019.

The expected maturity analysis of undiscounted retirement benefits liability as at December 31 is as follows:

P2,413,537

December 31, 2020	Less than a year	Between 1 to 5 years	Over 5 years
Retirement benefits	P767,948	P4.504.682	P13,891,837
December 31, 2019			
	Less than a year	Between 1 to 5 years	Over 5 years

The expected contribution for 2021 amounts to P2,458,634.

Retirement benefits

15. CONTRACT LIABILITIES

The account as at December 31 consists of the following:

	2020	2019
Current:	New York Patrice	-24 9 22 22
Membership dues	P2,885,844	P2,066,906
Admission fees	3,593,575	2,921,168
	6,479,419	4,988,074
Noncurrent:		PERMITTED SERVICE
Admission fees	23,865,983	20,832,211
Total	P30,345,402	P25,820,285

Membership dues represents advance collection of monthly membership dues which are applied in the next reporting period.

Admission fees pertain to admission fees paid by members which are to be amortized for an average membership period of 10 years.

16. PROPRIETARY MEMBERSHIP CERTIFICATES

The POC issued to original proprietary members are not to be issued for less than P3,000. The authorized and issued proprietary shares are as follows:

	2020	2019
Authorized:	14 a 1 3 3 4 4 5 5 6 6 6 7	
800 certificates at P3,000 stated value per certificate	P2,400,000	P2,400,000
Issued and fully paid:	-011500000000	0201202020
800 certificates	2,400,000	2,400,000

Additional contributions are excess of member's payment over the stated value of the POC which is recognized during the sale of the POC by the Club. These totaled P108,345,528 as at December 31, 2020 and 2019.

The following table presents information necessary to calculate the basic earnings per outstanding certificate:

	2020	2019
Net income (loss) for the year	(P3,932,875)	P6,485,413
Divided by: Outstanding stock certificate	800	800
Basic earnings (loss) per outstanding certificate	(P4,916)	P8,107

17. REVENUES

The revenues for the years ended December 31 are disaggregated as follow:

(a) Major revenues

	2020	2019	2018
Membership dues	P49,526,740	P44,058,377	P42,088,204

Trainings and seminars	13,344	362,792	509,885
Bank charges	750	1,250	150
Other events		1,432,470	
Transportation and travel			683,311
Miscellaneous	45,566	797,515	1,385,768
Total	P29,670,238	35,207,460	40,513,251

Salaries and wages include retirement benefits amounting to P2,258,873 in 2020 and P2,420,233 in 2019 (see note 14).

21. INCOME TAX

In June 2019, the Supreme Court ruled out that membership fees and other assessment/charges solely incurred by members are not subject to income tax and value added tax because they do not constitute profit or gain. They are collected purely for the benefit of the members and are the incidental consequence of a Club's responsibility to effectively oversee, maintain or even improve the Club as well as its governance.

The reconciliation of income tax computed at the statutory income tax rate to income tax expense as shown in the statements comprehensive income for the years ended December 31 is as follows:

	2020	2019
Income (loss) before income tax	(P6,120,279)	P8,803,387
Income tax expense at 30%	(1,836,084)	2,641,016
Add (deduct)		
Non-taxable income	(15,164,555)	(440,339)
Non-deductible expenses	14,813,235	117,297
Income tax expense (benefit)	(P2,187,404)	P2,317,974

The details of deferred tax assets in the statements of financial position as at December 31 are presented as follows:

	2020	2019
Retirement benefits liability	P2,747,029	P1,787,277
Unamortized admission fees	2,572,936	2,986,506
NOLCO	2,335,944	
Unamortized retirement contributions	488,163	585,795
MCIT	87,700	
Total	P8,231,772	P5,359,578

Per BIR Revenue Regulation (RR) No. 25-2020 (implementing Republic Act (RA) No. 11494 or the "Bayanihan to Recover as One Act"), the NOLCO for the taxable years 2020 and 2021 shall be allowed to be carried-over as a deduction from gross income for the next five consecutive taxable years immediately following the year of such loss. The NOLCO for the taxable year 2020 which will expire on 2025 amounted to **P7**,786,480.

22. RELATED PARTY TRANSACTIONS

The Club, in the normal course of business, has transactions with related party. Detail is shown below:

Related party	Relationship
Metropolitan Bank and Trust Company (MBTC)	Retirement plan trustee

Details of the transactions, fair value amount and terms and conditions follow:

	Amount of transactions		Outstandin	ng balance
	2020	2019	2020	2019
Retirement plan trustee	37.81(6)/2	500000		History
Retirement contribution	P1,050,000	P3,800,000	P18,838,705	P20,904.658
Expected return on plan assets	1,041,052	1,300,017		*
Benefits paid	(4,308,544)	(2,600,832)		

Transactions with MBTC

The Club has the discretion to deliver additional funds at any time hereafter and from time to time to the trustee, subject to the latter's agreement in each case. The agreement entered by the Club is a Trust Agreement for financial return and for the appreciation of assets of the account but does not guarantee a yield, return or income by the trustee.

The retirement plan asset is set up to establish funding of the retirement obligations of the Club (see note 14)

Key management personnel compensation

Compensation of the Club's key management personnel for the years ended December 31 are as follows:

	2020	2019
Short-term benefits Long-term benefits	P3,186,231 254,898	P4,552,211 364,177
Total	P3,441,129	P4,916,388

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Club's principal financial instruments comprise of cash and cash equivalents, trade and other receivables, trust fund investments, long-term investment, refundable deposits, trade payables, activity fund payables and other liabilities. The main purpose of these financial instruments is to raise finance for the Club's operations.

The main risks arising from the Club's financial instruments are credit risk and liquidity risk. The Club also monitors the market price risk arising from Trust fund investment. The BOT has reviewed and set up policies to manage these risks.

It continuously upgrades these policies and procedures to ensure that the management of risk exposures is both progressive and reflective of the Club's financial outlook.

n. Credit risk

Credit risk is the risk that the Club will incur a loss from members, guests or counterparties that fail to discharge their contractual obligations. The Club manages credit risk by setting limits on the amount of risk the Club is willing to accept from counterparties and by monitoring exposures in relation to such limits.

As a policy, the Club trades only with recognized, creditworthy members and guests and transacts only with institutions or banks which have demonstrated financial soundness. Credit verification procedures for member-customers on credit terms are done. In addition, results of regular review of receivable and allowance revealed that the Club's exposure to bad debts is not significant; hence, no allowance was provided. The Club's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount with respect to credit risk arising from the other financial assets of the Club, which compose mostly of trade and other receivables, trust fund investment and refundable deposits.

Credit risk exposure

The table below shows the gross maximum exposure to credit risk of the Club as at December 31.

	2020	2019
Cash and cash equivalents*	P44,414,160	P65,098,023
Trade and other receivables	15,752,346	15,461.285
Long-term investment	14,814,450	14,814,450
Refundable deposits	105,520	105,520
Total	P75,086,476	P95,479,278

^{*}Excluding cash on hand amounting to P75,000 as at December 31, 2020 and 2019.

There is no requirement for collateral over trade and other receivables since the Club trades only with members.

The Club's trade and other receivables current credit risk grading framework are as follows:

Category	Description	Basis for recognizing ECLs	Minimum allowance for credit losses	Stage
Performing	The counterparty has a low risk of default and does not have any past due amounts	12-month ECL	5%	1
Doubtful	Amount is 31 to 90 days past due or there has been a significant increase in credit risk since initial recognition	Lifetime ECL - not credit-impaired	10%	2
In default	Amount is more than 90 days past due or there is evidence indicating the asset is credit- impaired	Lifetime ECL - credit-impaired	50%	3
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Club has no realistic prospect of recovery	Amount is written off	100%	4

The table below shows the Club's maximum exposure to credit risk and the credit quality of the Club's financial assets:

		December 31, 2020					
		Basis of recognizing ECL	Gross carrying amount	Loss		Net carrying amount	
Cash in banks and cash equivalents	(a)		P44,414,160	P	-	P44,414,160	
Trade and other receivables	(b)	Lifetime ECL	15,752,346			15,752,346	
Trust fund investments	(0)	12-month ECL	12,344,529		+	12,344,529	
Long-term investments	(a)		14,814,450		-	14,814,450	
Refundable deposits	(d)		105,520			105,520	
Total	-		P87,431,005	P	-	P87,431,005	

		December 31, 2019					
		Basis of recognizing ECL	Gross carrying amount	Loss		Net carrying amount	
Cash in banks and cash equivalents	(a)		P65,098,023	P	-	P65,098,023	
Trade and other receivables	(b)	Lifetime ECL	15,461,285		-	15,461,285	
Trust fund investments	(c)	12-month ECL	12,289,887			12,289,887	
Long-term investments	(a)		14,814,450			14,814,450	
Refundable deposits	(d)		105,520			105,520	
Total			P107,769,165	P	-	P107,769,165	

- (a) Cash in bank and cash equivalents and long-term investments are assessed to have low credit risk at each reporting period. These are held by reputable banking institutions. The identified impairment loss on these financial assets is immaterial, hence no ECL is recognized.
- (b) For trade and other receivables, the Club has applied the simplified approach to measure the loss allowance at lifetime ECL. The Club determines the expected credit losses on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors. The Club implemented an effective collection policy, past due accounts are immaterial, and the Club assesses that these receivables are collected thus, no impairment loss be recognized for both years.
- (c) The Club has trust fund investments which composed of short-term and long-term time deposit which are held by a reputable bank which can be withdrawn upon approval of 2/3 of the members entitled to vote.
- (d) Refundable deposits are refunded upon the termination of the contract with the lessor of the electric meter used.

The following tables show the Club's aging analysis of past due, but not impaired financial assets:

December 31, 2020

December 611	A A SHOW A P					
	Cash and cash equivalents	Trade and other receivables	Trust fund	Long-term investments	Refundable deposits	Total

December 31, 2019

Neither past due nor impaired	Cash and cash equivalents	Trade and other receivables	Trust fund investments	Long-term investment	Refundable deposits	Total
High	P65,098,023	P13,563,797	P12,289,887	P14,814,450	P105,520	P105,871,677
Moderate		1,897,488			100000000000000000000000000000000000000	1,897,488
Total	P65,098,023	P15,461,285	P12,289,887	P14,814,450	P105,520	P107,769,165

b. Liquidity risk

The Club's policy is to maintain a level of cash that is sufficient to fund its monthly cash requirements. Operating expenses and working capital requirements are funded through cash collections. Furthermore, the Club places money in excess of immediate requirement in banks.

To manage this risk, the Club regularly monitors its projected and actual cash flows information and continuously assesses conditions in the financial market for opportunities to pursue fund raising initiatives. Furthermore, members may be assessed for any special purpose or assessment maybe increased with prior authority by the Club in a general meeting of voting proprietary members.

At December 31, 2020, the Club's financial liabilities have contractual maturities which are presented below:

	Within 6 to 12 months	Between 1 to 5 years
Trade and other payables*	P36,280,059	Р.
Member's cash and option deposits		24,071,500
Total	P36,280,059	P24,071,500
*F. 1 E		

^{*}Excluding amounts payable to government and unearned revenue with total amount of P3.401.769 as at December 31, 2020.

This compares to the maturity of the Club's financial liabilities as at December 31, 2019 as follows:

To I also the second	Within 6 to 12 months	Between 1 to 5 years
Trade and other payables*	P41,922,463	Р.
Member's eash and option deposits		24,071,500
Total	P41,922,463	

^{*}Excluding amounts payable to government and unearned revenue with total amount of P3,325,355 as at December 31, 2019.

The contractual maturities reflect the gross cash flows, which may differ from the carrying values of the liabilities at the end of the reporting period.

24. CAPITAL RISK OBJECTIVE AND MANAGEMENT

C

The Club's objective in managing capital is to safeguard the Club's ability to continue as a going concern so that it can continue the Club's services.

The Club manages the members' equity and makes adjustments to it in the light of changes in the economic conditions. In order to adjust capital, the Club may change assessments to Club members. No changes were made in the objectives and policies in 2020 and 2019.

The Club's strategy is to maintain a debt to equity not lower than 1:2. However, the debt to equity ratio is above the target as shown below. The management continues to pursue operational improvements that will address the debt to equity ratio target. Debt comprises of liabilities and equity comprises of all components of members' equity.

Debt to equity ratio as at December 31, 2020 and 2019 are as follows:

	2020	2019
Total liabilities	P96,972,789	P99,214,312
Total equity	313,371,716	318,910,300
Total	P410,344,505	P418,124,612
Debt to equity ratio	1:3.09	1:3.11

The Club sets the amount of capital in proportion to its overall financing structure, i.e., equity and financial liabilities. The Club manages the members' equity and makes adjustments to it in light of changes in the economic conditions and the risk characteristics of the underlying assets.

25. FAIR VALUE INFORMATION

Assets measured at fair value

The following table gives information about how the fair value of Club's assets is determined in particular, the valuation technique and inputs used.

	Fair v	alues	Fair value	
	2020	2019	hierarchy	Value techniques
Trust fund investments	11 NOTE OF THE POST OF	.10-242-0-242-0-2	7 755 00000	
Time deposit	P9,175,566	P6,508,934	Level 2	Discounted cash flows
Investment in private corporations	3,168,963	5,780,953	Level 1	Quoted bid price in an active market
Total	P12,344,529	P12,289,887		

Time deposit

The fair value is determined based on the discounted value of future cash flows using applicable interest rates for similar types of assets. Discount rate used was 3% as at December 31, 2020 and 2019.

Investment in private corporations

The fair value is determined by reference to current price of equity securities in an active market.

Asset and liabilities not measured at fair value

The following gives information about how the fair values of the Club's financial asset and liabilities, which are not measured at fair value, but the fair values are disclosed at the end of each reporting period are determined.

Cash and cash equivalents, Trade and other receivables, Refundable deposits, Trade and other payables and Member's cash and option deposits

The carrying amount approximates fair value due to the relatively short-term maturities of these financial assets and liabilities.

The carrying amount and fair value of the categories of noncurrent financial asset and liabilities presented in the statements of financial position are shown below:

2020									
	Carrying values	Fair values	Fair value hierarchy	Value techniques					
Financial assets:			Fry Ba	SHOW SE WAR					
Refundable deposits	P105,520	P102,447	Level 2	Discounted cash flows					
Long-term investment	14,814,450	14,370,017	Level 2	Discounted cash flows					
Total	P14,919,970	P14,472,464							
Financial liabilities:									
Members' cash deposits	P20,671,640	P20,069,543	Level 2	Discounted cash flows					
Members' option deposits	3,000	2,910	Level 2	Discounted cash flows					
Total	P20,674,640	P20,072,453							
	20	19							
	Carrying values	Fair values	Fair value hierarchy	Value techniques					
Financial assets:									
Refundable deposits	P105,520	P102,447	Level 2	Discounted cash flows					
Long-term investment	14,814,450	14,370,017	Level 2	Discounted cash flows					
Total	P14,919,970	P14,472,464							
Financial liabilities:									
Members' cash deposits	P24,068,500	P23,367,476	Level 2	Discounted cash flows					
Members' option deposits	3,000	2,910	Level 2	Discounted cash flows					
Total	P24,071,500	P23,370,386							
to be a second or the second o									

The fair value of refundable deposits, long-term investments members' cash deposits and option deposits is based on the discounted cash flow at a discount rate of 3% in 2020 and 2019, which reflects the prevailing borrowing rate at the end of the reporting period.

26. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The reconciliation about the changes in the Club's liabilities arising from financing activities including both cash and non-cash changes as follows:

	Changes from financing cash							
	2019	flows	2020					
Members' cash and option deposit	P24,071,500	(P3,396,860)	P20,674,640					
Contract liabilities	23,753,379	3,706,179	27,459,558					
Total	P47,824,879	P309,319	P48,134,198					

		Changes from financing eash	2019
	2018	flows	P24,071,500
Members' cash and option deposit	P23,091,500 18,248.034		23,753,379
Contract liabilities	P41,339,534		P47,824,879

27. EVENTS AFTER REPORTING DATE

On March 26, 2021, the RA No. 11534, known as "The Corporate Recovery or Tax Incentives for Enterprises Act" (CREATE Act), was passed into law. The salient provisions of the CREATE Act applicable to the Club are as follow:

- Effective July 1, 2020, the corporate income tax rate is reduced from 30% to 20% for domestic
 corporations with net taxable income not exceeding P5.000,000 and with total assets not
 exceeding P100,000,000, excluding land on which the particular business entity's office, plant,
 and equipment are situated during the taxable year for which the tax is imposed at 20%. All
 other domestic corporations and resident foreign corporations will be subject to 25% income
 tax;
- MCIT rate reduced from 2% to 1% effective July 1, 2020, to June 20, 2023.

The impact of the RA No. 11534 on the Club's financial statements as at and for the year ended December 31, 2020, is presented below:

December 31, 2020, is breasant						
	As at December 31, 2020	Effect of changes in tax rates	Adjusted amount			
Statement of financial position Prepaid income tax Deferred tax assets	P321,853	P21,925	P343,778			
	8,231,772	(1,379,270)	6,852,502			
Statement of comprehensive income Deferred income tax benefit - profit or loss Deferred income tax benefit - OCI	2,187,404	(918,906)	1,268,498			
	597,090	(438,439)	158,651			

28. SUPPLEMENTAL INFORMATION REQUIRED BY THE BIR

Supplementary information required by RR No. 15-2010

On December 28, 2010, the BIR issued RR No.15-2010, which amended certain provisions of RR No. 21-2002 prescribing the manner of compliance with any documentary and/or procedural requirements in connection with the preparation and submission of financial statements and income tax returns. Section 2 of RR No. 21-2002 was further amended to include in the ffs to Financial Statements information on taxes, duties and license fees paid or accrued during the year in addition to what is mandated by PFRSs.

The following supplementary information is required this regulation:

(a) Output VAT

The Club declared output VAT for the year is as follows:

ies Output VAT	Revenues	
	P29,743,619 47,516,580	Sales subject to 12% VAT Sale of goods
	P77,260,199	Exempt sales
	P//,260	Total

Exempt sales pertain to the membership fees solely incurred by the members per Supreme court decision dated June 26, 2019.

(b) Input VAT for the year is summarized below.

	2020
	P426,773
Balance at beginning of year	6,159,964
Add: Current year's domestic purchase/payments	6,586,737
Total available input VAT	(3,986,320)
Less: Applied against output VAT during the year	P2,600,417
Balance at end of year	

Balance at end of year pertains to unamortized portion of the input tax on purchase of capital goods exceeding P1,000,000 of P195,604 and excess input VAT to be carried-over in subsequent years of P2,404,813.

(c) Taxes on importation, excise tax and documentary stamp tax

The Club has not paid nor accrued custom duties or tariff fees as the Club did not import any goods or equipment. The Club has not paid nor accrued any excise tax. The Club has not paid any documentary stamp tax, as there is no related transaction that requires the payment of the said tax.

(d) Taxes and licenses

Details of the Club's all other local and national taxes for the year are as follows:

	2020
Print and a service of the control o	P7,696,132
Real property tax	802,546
Business permit	2,350
Insurance tax	500
BIR registration	P8,501,528
Total	1 8,501,500

(e) Withholding taxes

Details of the Club's total withholding taxes for the year are as follows:

	2020
Expanded withholding taxes	P875,399
Tax on compensation and benefits	351,258
Total	P1,226,657

(f) There are no deficiency tax assessments incurred and paid for during the year 2020. The Club has no tax cases under preliminary investigation and/or prosecution in courts or bodies outside the BIR.

Supplementary information required by BIR RR No. 19-2020, as amended by RR No. 34-2020

On July 28, 2020, the BIR issued RR No. 19-2020, which was amended by RR No. 34-2020 dated December 28, 2020, which prescribes the procedures and guidelines in connection with submission of Form 1709 or Information Return on Related Party Transaction (RPT Form).

Under Section 2 of RR No. 34, 2020, the following are required to file RPT Form, together with Annual Information Tax Return (AITR):

- Large Taxpayers
- Taxpayers enjoying tax incentives, i.e. Board of Investments (BOI)-registered and economic zone enterprises, those enjoying Income Tax Holiday (ITH) or subject to preferential income tax rate;
- Taxpayers reporting net operating losses for the current taxable year and the immediately
 preceding two consecutive taxable years; and
- d. A related party, as defined under Section 3 of RR No. 19- 2020, which has transactions with (a), (b) or (c). For this purpose, key management personnel (KMP), as defined under Section 3 (7) of RR No. 19-2020, shall no longer be required to file and submit the RPT Form, nor shall there be any requirement to report any transaction between KMP and the reporting entity/parent company of the latter in the RPT Form.

The Club does not meet any of the criterion above. Thus, the Club is not covered by the requirements and procedures for related party transactions provided under the aforementioned RR.
